

Invitation to our workshop on the research information system

Dear Scientists,

The [Gutenberg Research Elements](#) research information system has been available to you since the middle of the year. The system supports you as a researcher at JGU in presenting and managing information on your research in one place.

Gutenberg Research Elements offers you the following options:

- Collection of publications with numerous options for data transfer from external data sources (e.g. from ORCID, bibliographic databases, [Gutenberg Open Science](#))
- Allocation of projects, recording of research awards, and specification of various other aspects of your "professional activities"
- Presentation of your research activities on a personal profile page
- Automated display of publication lists on the university WordPress pages about you and departments / institutes
- Automated proof of your publications in the university bibliography
- System-supported delegation option for data acquisition e.g. to secretariats or auxiliary staff

The workshop on **Thursday, 15.12.2021, 6 p.m.** will cover the following topics:

- General information on the FIS project Gutenberg Research Elements
- Publication data management with Gutenberg Research Elements
- Data transfer from the ORCID account
- Use of the WordPress plugin
- Gutenberg Research Elements and the university bibliography

Would you like to participate in our workshop? Then please register by e-mail to researchelements@uni-mainz.de so that we can send you the link to the event (MS teams).

Further information on the project and FAQs can also be found on the Gutenberg Research Elements [homepage](#).

Best regards,

Your team from Gutenberg Research Elements
